

Chamois Swabs

Lint-free professional swab for cleaning rotary audio, video and computer tape backup heads. Single-head synthetic suede bonded securely to a 10cm bendable shaft. Good for hard-to-reach areas.

MODEL	DESCRIPTION	
810-15	Pkg/15	
810-50	Pkg/50	

Cotton Swabs

Low lint, extra absorbent pharmaceutical-grade cotton bonded onto a 15cm white birch staff for extra rigidity. Compatible with most solvents.

MODEL	DESCRIPTION	
811-100	Pkg/100	
8112-100	Pkg/100 (Tapered version)	

FOAM OVER COTTON SWABS

Shred-resistant urethane foam heads, 100 pores per inch (ppi), and extra absorbent pharmaceutical-grade cotton. Bonded securely onto a 15cm birch staff. Compatible with most solvents.

MODEL	DESCRIPTION	
812-10	Pkg/10	
812-50	Pkg/50	

FOAM SWABS

Large, shred-resistant, 100% urethane foam heads with 100 pores per inch. Bonded securely to a 13cm polypropylene shaft.

MODEL	DESCRIPTION	
813-10	Pkg/10	
813-50	Pkg/50	

Injector

CHEMICAL INJECTOR

Injects cleaners and oils into shafts, controls and tight places.

MODEL	DESCRIPTION	
8383	Needle Type Injector	

Rubber Renue

RUBBER RENUE - LIQUID

Rejuvenates and conditions rubber and removes grease, grime and oxidation instantly. Ideal for use on rollers, belts and platens. Apply with cloth or brush. Leaves no residue. Fast dry.

MODEL	DESCRIPTION	
408A-125	125ml	

Keypad Repair

RUBBER KEYPAD REPAIR KIT

This easy-to-use kit comes with everything needed to repair keypads on remotes (TVs, DVDs, etc), calculators, security systems and more. Contains stir sticks, applicator swabs, contact cleaner, primer prep and a conductive coating.

MODEL	DESCRIPTION	
8339	Repairs over 200 buttons	

CONDUCTIVE SILVER COATING BUTTON REPAIR

This is a silver-based conductive ink for use on most surfaces (rubber, epoxy, glass, plastic). Intended for repairing membrane buttons, keyboard buttons, and other carbon- or silver-coated contacts. It may also be used as shielding against EMI.

MODEL	DESCRIPTION	
K-CK44-G	1g	

Silicone Sealers

RTV SILICONE

A spreadable, translucent paste. Excellent for sealing components on PCBs and protecting electrical connections. Non-corrosive, retains elastomeric properties from -60 to 204°C. Suited to marine applications.

MODEL	DESCRIPTION	
1035-85ML	85ml (3oz), Translucent Paste	

Adhesives

KRAZY GLUE

Super-strong, fast-drying adhesive for plastics, metal, glass, rubber, ceramics and more. Colorless when dry.

MODEL	DESCRIPTION	
10100	Original, 2ml	
10120	Pinpoint Accuracy, 2ml	

CONDUCTIVE SILVER EPOXY

This silver epoxy combines high electrical conductivity with strong bonding properties. Use instead of soldering on heat sensitive components. Good for repairing defective traces, creating jumpers and as heatsink adhesive. Comes in two 7g syringes.

MODEL	
8331-14G	

FAST SETTING EPOXY

Provides 2300psi bonding strength to paper, wood, metal, and ceramics. Conveniently packaged in a 25ml dual syringe with twist-off cap for easy mixing. Resistant to water, salt spray, inorganic acids and bases, and most organic solvents.

MODEL	
8332-25ML	

THREADLOCKER

Threadlock helps eliminate free play that can cause fasteners to vibrate and come loose. Ideal for fasteners 3/4" or smaller. General purpose, medium strength, removable.

MODEL	
8702-10ML
