

AC/DC Adapters - Switching

Circuit-Test offers a full range of AC/DC switching power supplies that meet the new Energy efficiency Level IV and V requirements and also certified with North American safety approval cULus. These external power supplies are available in compact lightweight Wall mount style and also in versatile Desktop style; suitable for Telecommunication, Computer, Industrial Controller and other electronic applications. Large inventory of all stocking models is available in our warehouse or custom manufacturing (with minimums) is also available with short lead times.

- Universal Input voltage – 100-240VAC 50/60 Hz
- Regulated output with low ripple noise
- Short circuit, over voltage and over current protection
- Energy efficiency Level IV and Level V
- cULus approved
