

AC Fans

Manufactured with high quality industry standards Circuit-Test fans deliver high performance, efficiency and reliability. Made with die cast aluminum housing the AC Axial fans are available with metal or plastic impeller, ball bearing or sleeve bearing and in a vast selection of sizes. These industrial quality cooling fans are ideal for Telecommunications, HVAC, Appliances and many other computer and electronic applications. They also meet the North American safety standard approvals CSA/UL. Large inventory of all stocking models is available in our warehouse or custom manufacturing (with minimums) is also available with short lead times.

- *Frame: Die Cast aluminum*
- *Impeller: Metal or Glass fibre reinforced plastic 94V-0 PBT*
- *Bearing: Ball or Sleeve*
- *Input Voltage: 115 or 230VAC*
- *Connection: 1/8" Quick Connect terminals or 2 Wire leads*
- *Approvals: CSA/UL*
